

Bern-Fribourg Master's in Earth Sciences

Hybrid Information Event in **Bern: 18.3.2026**

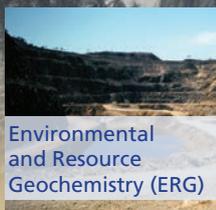

Take a look at the first hand information and discover the Specializations

Earth and Life
Evolution (ELE)

Earth Materials (EM)

Environmental
and Resource
Geochemistry (ERG)

Geology (GEOL)

Pure and Applied
Quaternary
Sciences (PAQS)

Have your Bachelor studies instilled in you a fascination for Geology?

Are you interested in pursuing your studies at the Master's level?

Do you wish to train for an exciting career in research or industry?

We are pleased to invite you on March 18 to a brief information event regarding the Bern-Fribourg Master's in Earth Sciences. This is a chance for you to meet potential advisors, to discuss the options for curricula and to quiz current Master's students about their experience.

16:30 - 17:30 Presentation of MSc curriculum and the 5 MSc Specializations

17:30 Poster session and apero, discussion with students

The Bern-Fribourg Master's in Earth Sciences is a joint programme run by the Institute of Geological Sciences at the University of Bern and the Department of Geosciences at the University of Fribourg.

Please confirm participation to www.mastertage.unibe.ch at the latest by **March 15, 2026**.
